THE NEVADA MONTHLY.

The Nevada Monthly for October has come to hand. It will be found an excellent number. The following is the table of contents: Mining Review, Mineral Patents, An Essay on Man, History of Nevada, Almost a Crime by J. Russell Fisher, Dividends for September, Mining Companies' Cash Balances, Mining Indebtedness, Locations, Relocations and Affidavits of Labor for September, Incorporations for September, Assessments, Bullion Shipment for September, Looking Back by J. Russell Fisher, A May-day Picnic by J. Manford Kerr, Leadville Mining Output, Montana—Summit Valley District, Selections from Mining Exchanges, Assessment Table, Highest and Lowest Prices of Stocks, Political—What the Republican Party Has Not Done, What the Republican Party Has Done, Nevada Republican Platform, National Republican Ticket, Storey County (Nev.) Politics, Storey County Republican Platform and Resolutions, Storey County Republican Ticket, A Legend of the Sierras by Dan De Quille.

THE GENERAL ELECTION.

There is no doubt of the election of General Garfield. He surely has the electoral votes of every Northern State, with the exception of New Jersey, Nevada, California and Oregon. New Jersey and Nevada are conceded to Hancock. California and Oregon, at the present writing, remain in doubt. The vote in California is very close. It will be some days before the result will be known to a certainty in Oregon, as the returns are coming in slowly. A dispatch to-day says that North Carolina has gone Republican, but this is improbable. The latest estimate for the next Congress gives the Republicans 153 and the Democrats 125 in the House, a large Republican gain. The Senate will probably be Democratic. Conflicting dispatches have been received from New York, but the latest gives Garfield a majority of nearly 25,000 in the State.

NEVADA.

This State has no doubt given a majority for Hancock, probably several hundred. The Democrats have elected Cassidy for Congress, Belknap for Supreme Judge, and will have a majority in the Legislature. Fair's money has brought about this result, and the Democratic Legislature will be too grateful not to reward him with the U. S. Senatorship. After electing Fair, the next legislative proceeding will be to turn all the State Prison officials out in the cold and fill their places with Democrats. The Legislature will probably also make some changes in the State University.

EDITORIAL NOTES.
The keenest remark at the expense of Sara Bernhardt's lean proportion is that made by Dumas. Looking at a picture of the Bernhardt and her dog, he remarked that it was the picture of a dog looking at a bone. The actress is the fashionable topic in New York. It is said among other things that her feet are only four inches long. She brings to America 75 pairs of shoes, 300 pairs of gloves and 40 new dresses. She has some wonderful hats.

There are in the California State Senate, all of whom hold over twenty-four Republicans, six Workingmen and eight Democrats with two in doubt as to how they may vote on United States Senator. Eighty Assemblymen were elected yesterday, and the Republicans needed to win only thirty-seven to have a majority on joint ballot for the election of a U. S. Senator.

New Jersey has 9 Electoral votes, Nevada 3, California 6, and Oregon 3. Allowing these and the Solid South's 138 votes to the Democrats, they would be 26 short of 185, and Garfield's majority in the Electoral College would be 51. The Republicans could easily throw in a few more States and have votes to spare.

Sixteen U. S. Senators are to be chosen this winter by Legislatures elected last Tuesday in the following States: California, Connecticut, Delaware, Florida, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, Nevada, New Jersey, New York, Pennsylvania, Tennessee, Texas and Wisconsin.

The famous bay colt Robert the Devil was not sold in London last

week as was expected, because his owner's reserve price of \$63,000 was not bid.

The official returns show that Ohio polled an enormous vote in October—an increase of 45,460 over the highest vote ever cast before.

San Francisco gives Hancock a majority of 2,404, and elects Rosecrans (Dem.) to Congress in place of Davis (Rep.).

Thursday, Nov. 23d, has been proclaimed by the President a day of National Thanksgiving.

Each Territory elected a delegate to Congress on Tuesday.

The close season for trout and deer has commenced in California.

Milling at the J. & K.
J. H. Kinkaid went back to Pyramid this afternoon. He says the J. & K. will make a good clean up on the 15th inst. They are now working \$20 ore which mills about \$16 to the ton. The mill is giving perfect satisfaction. Everything is all right in and about the mine.

Going Out of Business.

S. N. Davidson is about to retire from business in Reno, having secured a good opening elsewhere. He advertises his large and fine stock of clocks, watches, jewelry, silverware, spectacles, etc., at cost and less than cost. His store fixtures are also for sale at a sacrifice.

Accidental Death.

A Chinaman was killed at Verdi on Tuesday by a stick of wood which bounced from a flume and struck him in the breast. The remains have been brought to Reno for burial.

The Lake Case.

The divorce suit of Jane Lake vs. M. C. Lake is making slow progress in the District Court. Yesterday the plaintiff rested her case. Evidence for the defense is being heard to-day.

Personals.

Fred Wetherill went back to Battle Mountain last night.

Senator Sharon came down from Carson last evening and departed for his home in California.

Before purchasing your holiday presents go and examine J. Frederick's immense stock of watches, clocks, jewelry, etc.

Northern News Notes.

From the Modo "Independent." The apple crop in Honey Lake valley is said to be unusually large. Good apples well boxed are selling at one and a half and two cents per pound.

The first flour ever made in Alturas was made in Lauer's new mill to-day. The farmers can now send in their wheat and get it ground at any time. Some of our citizens are having wells bored. By going to a depth of thirty or forty feet they get a better supply and much better quality of water than by the old plan of digging to the level of the bed of the river.

The mail now leaves Susanville for Biola every Monday, Wednesday and Friday, and returns on alternate days. By this change we get our mail from Reno and Susanville one day later than by the old route.

Pierce & Westlake, who have been running a thrasher in Surprise valley, brought their machinery home this week, having completed their work; threshing about 34,000 bushels. The yield on the majority of the ranches was very good considering the season.

McKay & Mills have purchased a complete outfit of machinery for the manufacture of doors, window-sash and furniture. Teams are now between here and Redding loaded with the machinery, and it will be a few days before Alturas can boast of another branch of industry.

More Pearls of Thought.

From the Chicago Tribune—

The Tribune has long admired the plan adopted by the New York Post of publishing every now and then the briefest and best utterances of the world's master minds under the heading, "Pearls of thought," and adopts the idea in the full belief that its readers will be made better thereby. Our first necklace of pearls has been secured direct from the manufacturer at great expense, and is as follows:

Always be kind to the poor man. He always has his dry, from running over you some day.—S. J. Tilden.

Many men think too much of self-interest. Ten per cent. always did well enough for me.—W. H. English.

It is better to have gone in 2:14

than never to have trotted at all.—Mauds Maid.

Heaven helps him who helps himself. This is wrong.—William M. Tweed.

Wives of great men oft remind us

We may make out wives sublime,

But don't let us be made sublime,

And a chaste book out of time.—Longfellow.

JOTTINGS.

Belcher is assessed 75 cents.
Reno Republicans have nothing but curses for Sharon.

The C. P. pay car came in from the west this morning and paid off the employees of the road.

The vote for the Constitutional Amendments was unanimous in this county. In Reno only two votes were cast in favor of Chinese immigration.

Mr. Don'tgivethadamn is glad that the election is over. He is satisfied that the grass will grow and the rivers run no matter what party gets in power.

The west-bound overland was nine hours late last night. The lightning took its place last evening, and the overland went through as the lightning this morning.

The question of the occupancy of the White House is settled. For the next four years, and in all probability for life, Abrahams Bros. will continue to occupy the establishment and to sell at the lowest prices the latest styles in clothing and men's furnishing goods.

I. Fredrick received the highest medal for the finest display of watches, clocks, jewelry, etc., at the Nevada State Fair.

The Henderson-Bacchus Fight.

Henry Henderson's examination, on the charge of stabbing Frank Bacchus, will take place to-morrow at ten o'clock. It appears that the quarrel originated over a political discussion between the two. It is alleged that Bacchus charged Henry with treachery to his race in voting the Democratic ticket and then struck Henry. Thereupon Henry drew a knife and inflicted a slight cut upon the body of Bacchus. Bacchus then rushed into Haller's meat shop, seized a long knife and sharpened it vigorously upon a stone, with the presumable intention of searching for Henry's vitals with the blade. Seeing Bacchus thus employed Henry lost no time in getting out of sight. Bacchus subsequently had Henry arrested.

Do not fail to call and examine I. Fredrick's immense stock of holiday goods, comprising the latest novelties in watches, clocks, jewelry, etc.

A Patient Prospector's Persistence.

The Truckee Republican learns from James Gould that H. H. Hartley is still pushing ahead on his mine, the Excelsior, at Meadow Lake. Hartley is just as enthusiastic as ever, and firmly believes that section will ere long be the great mining centre of the Sierra. He works his rock by hand, and has thereby made a living for himself for the last ten years. Some of the rock in the Excelsior is said to go over a thousand dollars per ton. Hartley was the discoverer of the district, and he has remained there ever since. It would be generally alone, his only companion being the lonely pines and about twenty or thirty feet of snow.

Particular attention paid to the repairing of watches, clocks and jewelry at the well-known establishment of I. Fredrick.

Served Him Right.

One Shotter, a man with a white outside, was badly beaten by Indians on the street last night. The story is that the Indians gave him four bits to invest in whiskey for them. Shotter bought two bits worth of whiskey, which he drank, and then presented the Indians with the empty bottle. The Indians punished him for his treachery with a terrible flogging, which will lay him up for a while.

It is well known fact that I. Fredrick is the most reliable jeweler in Reno, novitif

THE COUNTY ELECTION.

The Democratic County Ticket Elector, Excepting Treasurer and Administrator—The Complete Vote and the Majorities—The Republicans Elect the Justice and a School Trustee in Reno Precinct.

David Martin came into town this morning with the ballot cast at Salt Marsh and Dutch Flat, which he deposited at the Court House. The full and exact vote from these two precincts will not be known until the returns are opened by the Commissioners. Mr. Martin states that Salt Marsh went nine Democratic and five Republican. He furnishes the following incomplete return from
